PROFESSIONAL SUMMARY

Aspiring Full Stack Developer and **Generative AI Developer** with hands-on experience building dynamic web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing RESTful APIs, implementing CRUD operations, database integration, and building scalable web solutions. Passionate about exploring Generative AI technologies and integrating intelligent AI-powered features into modern applications. Seeking opportunities to contribute to real-world projects, apply problem-solving skills, and develop innovative solutions across full-stack development and Generative AI.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), Python, SQL
Frontend:	React.js, HTML5, CSS3, Tailwind CSS
Backend:	Node.js, Express.js, REST APIs
Databases:	MongoDB, PostgreSQL, MySQL
Tools:	Git, GitHub, Linux (Ubuntu)
Deployment :	Vercel, Netlify, Render

PROJECTS

Glow and Grace | Full-Stack Web Application

Tech Stack: React, Node.js, Express.js, MongoDB,JWT,HTML,CSS

- Built a beauty and clothing web application with separate frontend and backend components.
- Debugged frontend–backend API communication by correcting endpoint configuration and resolving CORS issues.
- Integrated MongoDB with the Express.js backend using Mongoose to store and retrieve application data.
